ministry of this charch. A motion was made to lay the minority report on the table, but the motion was lost by a vote of 126 to 118.

The discussion then began, and when the final vote was taken, the minority report was lost, and the majority report was adopted by a majority of three votes. There were 134 votes cast for the adoption of the minority report, and 137 against its adoption. The majority vote was then adopted.

During the discussion the argument sgainst the minority report was to the effect that admonition would be more effective than legislation. On the other hand, the advocates of the minority report vrged that the time had come for this church to deliver herself in no uncertain manner on this point. One delegate went so far as to say that while he had been in the habit of holding up preachers as models for his soon to follow, but on account of the use of tobacco by the preachers, the time had come when they would have to do one or two things—to pull down the preachers, or to life up tobacco.

The point was made by another

adown the preachers, or to life up tobacco.

The point was made by another
apeaker that the minority report had
in it no recommendations to deprive
the preachers of their tobacco who
gre already in the traveling connection, nor did it recommend the taking
away of the "episcopal cigar," but
that what it did recommend was to
keep the young men who enter the
ministry in the future from forming
this habit. The fact was brought out,
dist Church in Canada and of the
Methodist Episcopal Church, in both
of which the candidates for the minlistry are required to abstain from the
use of tobacco, a law which both
churches regard as one that has been
beneficial to the preachers and helpful
to their influence over others. The
point at issue was contested vigorously,
and the discussion and action will be
remembered as one of the most interseting during the conference.

Manufacturers Take High Ground on Public Issues.

MAJOR CLELAND NEW PRESIDENT

Chicago Wins Over Many Cities by Getting Convention Next Year-Piano Dealers Nominate Officers, but Meeting Does Not Begin Until Monday.

Swinging out from the narrow chan-nel of consideration of matters direct-ly affecting the organization, the Na-tional Plano Manufacturers' Associational Piano Manufacturers' Associa-tion of America yesterday decided to adopt a broader course and to take a vigorous interest in the vast national reforms that are proposed to-day. Conservation of natural resources, creation or a national merchant ma-rine, and the development of inland waterways—these, among other ques-tions, will hereafter receive the seri-ous attention of the association, which tions, will hereafter receive the serious attention of the association, which takes the high ground that such problems affect the welfare of the whole country, and are not confined to sectional nor part political lines.

Vital to Plano Trade.

This action is of ringing significance. The association scallzes that, indirectly the suestions are of vital
